

GLASS HARDWARE SOLUTIONS

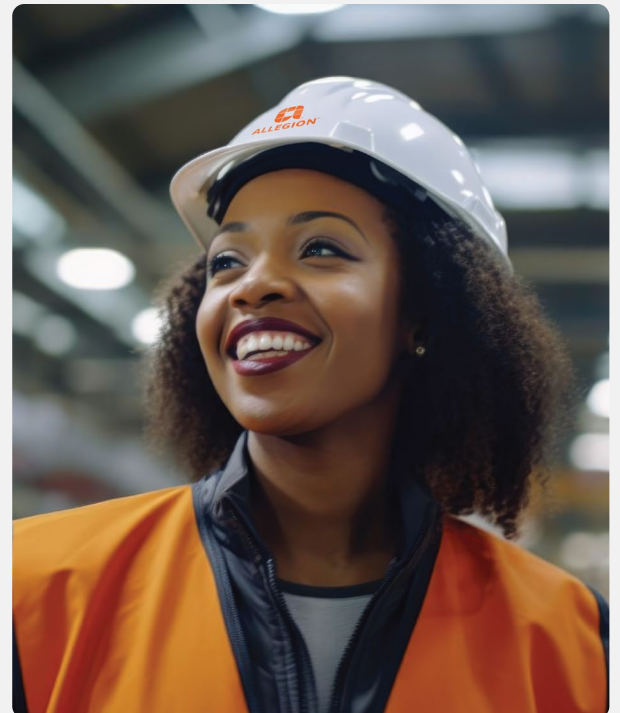

From sleek handles to advanced electronic locks and door closers, Allegion's solutions are ideal for residential, commercial, and retail applications.

THE GRAND
1000 GRAND AVENUE

We are Allegion

Allegion is a global leader in security and access solutions, offering innovative products designed to enhance both functionality and aesthetics for glass installations. With a portfolio of over 30 trusted brands, such as Schlage, Von Duprin, LCN, Stanley, Glynn-Johnson, and Ives, Allegion provides a wide range of hardware tailored for glass doors, partitions, and frameless systems.

Built with durability and modern design in mind, Allegion products seamlessly integrate with glass to deliver secure and stylish access control. Whether you're looking for architectural hardware, safety devices, or smart technology, Allegion is your trusted partner for elevating glass installations.

STANLEY
Access Technologies

Schlage® is one of Allegion's most recognized brands, offering a wide range of locks and access control solutions. For glass dealers, Schlage provides:

- **Electronic Locks:** Smart locks and keypad locks that can be mounted on glass doors with compatible hardware.
- **Deadbolts and Lever Locks:** High-quality locks that can be adapted for use with glass doors.
- **Access Control Integration:** Multi-technology Smart readers and controllers that work seamlessly with glass doors.

VON DUPRIN

Von Duprin® specializes in exit devices and panic hardware, making it a great choice for commercial glass doors that require safety and compliance.

- **Exit Devices:** Designed for use on glass doors in commercial spaces, ensuring safe egress in emergencies.
- **Electric Strikes:** Compatible with glass door frames to enhance security in access control systems.

LCN

LCN® is known for its high-quality door closers, including options that work well with glass doors.

- **Concealed Door Closers:** Perfect for frameless glass doors, maintaining the clean aesthetic while providing functionality.
- **Surface-Mounted Door Closers:** Available in various finishes to match the design of glass doors.

FALCON

Falcon® offers cost-effective solutions for commercial applications, including hardware for glass doors.

- **Locks and Exit Devices:** Affordable yet durable locks and exit devices for glass doors in high-traffic areas.
- **Door Closers:** Reliable door closers that can be used with glass doors in retail and office spaces.

IVES

Ives® is Allegion's architectural hardware brand, offering elegant and functional solutions for glass doors.

- **Pulls and Handles:** A wide range of stylish handles and pulls for glass doors.

STANLEY Access Technologies

Stanley® provides a comprehensive range of products and services tailored to meet the unique needs of glass dealers. Key offerings include:

- **Door Hardware:** High-quality locks, handles, and closers designed specifically for glass doors, including locksets, and panic devices.
- **Access Control:** Advanced electronic access control systems compatible with glass installations, enabling secure and convenient entry management.
- **Glass Door Accessories:** Hinges, pivots, and seals engineered for seamless integration with glass doors to ensure durability and aesthetic appeal.
