FALCON®

Falcon Freestyle

8100IQ Automatic Door Operator

FALCON | ALLEGION

US.Allegion.com

Freestyle your schedule

Take a look at your schedule. Pretty packed, right? You need something fast and reliable so you can get the job done right and move on down that list.

Enter the Falcon Freestyle™, an automatic door operator with an installation so quick and setup so easy that you'll be onto the next thing before you know it. A couple of screws, slide the hardware in, attach a couple wires and with a few clicks on our mobile app, that door is ready to go! Couple that with smooth operation, an affordable price-point and a 2-year warranty, and that never ending to-do list will be a thing of the past.

Freestyle your schedule with the Falcon Freestyle.

Total control, your way

Our Freestyle operator includes an on-device LCD screen, making it simple and intuitive to navigate all of our adjustable settings. Simply use the included push buttons to browse the menu, configure the operator, and access device health information.

A mobile solution for door controls

Allegion Optimize™ is the mobile app for connected Allegion devices. It provides functionality throughout the device lifecycle—from calibration to adjustment to troubleshooting—without the need for a ladder or even taking the cover off. Scan the QR code to download the app or search in the app store.

Slim-line design

8130IQ, Full cover
38-1/2"w – 3-1/4"h

8140IQ, Full cover
38-1/2"w – 3-1/4"h

8130IQ, Compact cover
29-1/2"w – 3-1/4"h

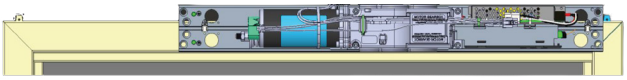

8140IQ, Compact cover
29-1/2"w – 3-1/4"h

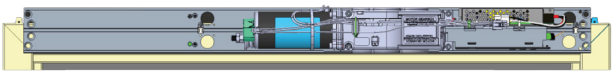

We designed this operator to blend into the background. With multiple finish options and the slim-line footprint, the only thing you'll notice once it's on the door is how little you notice it.

Enjoy application freedom with a slim 3-1/4" header that can be installed just about anywhere you need. Stop worrying about clearance and headroom and choose the operators that's slimmed down to fit whatever you need.

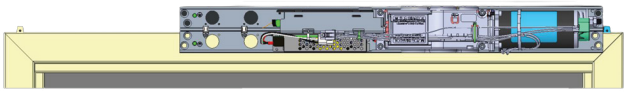

Minimal clearance installation

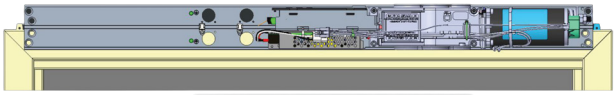

COMPACT RH push - 2" frame

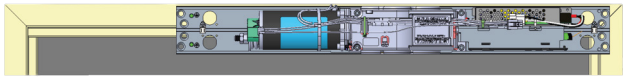

Full RH push - 2" frame

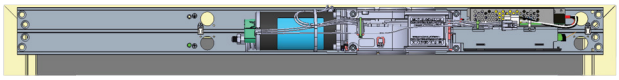

COMPACT LH pull - 2" frame

Full LH pull - 2" frame

COMPACT RH push - low ceiling – 1-1/2" frame

Full RH push - low ceiling – 1-1/2" frame

With flexible baseplate placement and a front load “slot & slide” installation method, this operator only requires as little as 1-1/2" of headroom, depending on the installation type.

AdaptivIQ™

2026 SIA New Products & Solutions Award Recipient

Let us handle the adjustments while you tackle more important things. AdaptivIQ is built-in so that every operator automatically adjusts to external pressures and resistance. When the temperature swings or stack-pressure changes, our operator changes with it to provide consistent performance, all-year-round.

Self-calibration

Our self-calibration cycle makes setup a breeze. Upon installation, choose the ‘Device Setup’ option on either the LCD controller screen or our Allegion Optimize™ mobile app. Once calibration is done, the operator defaults will be set, and unless you want specific settings adjusted, you’re finished!

About Allegion

At Allegion (NYSE: ALLE), we design and manufacture innovative security and access solutions that help keep people safe where they live, learn, work and connect. We're pioneering safety with our strong legacy of brands like CISA®, Interflex®, LCN®, Schlage®, SimonsVoss® and Von Duprin®. Our comprehensive portfolio of hardware, software and electronic solutions is sold around the world and spans residential and commercial locks, door closer and exit devices, steel doors and frames, access control and workforce productivity systems.
