Policies and documents

The purchase of Allegion products is governed by the Allegion Authorized Seller Program. For program terms and conditions, and other program details, please visit: www.allegion.com/AuthorizedSeller.

For Warranty information, visit us.allegion.com/warranty or contact Customer Service at 877-671-7011.

Sustainability

Allegion can provide sustainability documentation for select products, ensuring transparency and adherence to environmental standards and building certification programs such as LEED and Living Building Challenge. This documentation includes detailed information on the sustainable practices and materials used, helping you make informed decisions that align with your sustainability goals.

To view the full list of products with declarations, please visit: <https://us.allegion.com/en/resources/sustainability.html>

Online ordering is available through Overtur™ Estimate and Order (OEO)

OEO offers much more than placing online orders including:

- Provides net price for direct customers and list price for indirect customers, integrator partners and end-users
- Online Ordering for direct customers
- Automated price updates
- Ability to export price lists and cross-reference guides in Excel
- Republic Stock Doors, Frames and Modifications are available at this time
- Request a quote or quote revision from an estimate

How to get it:

1. Login or register at <http://360portal.allegion.com>
2. Find the Estimate and Order Icon and follow the instructions to request access
3. The Online Ordering team will begin working on your access with your Allegion Sales Representative

Traditional ordering methods:

Email: Republic.Order.Entry@allegion.com

When using traditional ordering methods, list the product attributes in the order outlined in this price book, which follow the ACN format guidelines.

HOLLOW METAL ORDER STANDARDS

The following are defaults or standards to be aware of when placing manual orders to Republic and Steelcraft. The intent is to reduce the number of clarification needs for industry common product standards. Many of these are already defaults but important to document.

General Door & Frame Standards

1. Cold Rolled Steel (CRS) unless otherwise stated.
2. For continuous hinges there will not be any additional reinforcement unless otherwise stated or requested.
3. We will default to 4-1/2" universal hinges unless specified or required for performance or certification needs.
4. The quantity of hinges will follow each brand's location and quantity standards outlined in Tech Manual unless otherwise specified.
5. The Door thickness standard of 1-3/4" thick and frames rabbet to accommodate a 1-3/4" thick door is standard unless otherwise specified.
6. Shop drawings and hardware schedules are not considered a purchase order.
7. Please ensure door and frame orders are configured to work together. While we may try, we are not responsible to cross-reference orders, or jobs, to ensure fit and function.

Frames

1. Standard frames, 16 and 14 gauge will be knock down unless indicated otherwise.
 - Steelcraft 12 gauge frames will be square cut as standard
 - Republic 12 gauge frames will be square cut as standard
2. If welding is noted, frames will be face welded unless stated otherwise to be full profile or continuously welded.
3. The frames standard profile of 2" face and unequal rabbet will be the default unless otherwise indicated in that order line.
4. Jamb Anchors:
 - Steelcraft will default to loose wire anchors unless otherwise noted
 - Republic all jamb anchors must be ordered and indicated separately and are shipped loose unless welded is indicated
5. Glazing Bead default size will be the following unless otherwise specified:
 - Steelcraft will be 5/8" x 5/8"
 - Republic will be 3/4" x 5/8"
6. Fire labels will be mylar as default unless "metal" or an hourly rating is specified:
 - Steelcraft will be Intertek (ITS)
 - Republic is UL

Doors

1. Door core will be honeycomb core unless otherwise indicated.
2. The provided door edge seam will be our standard visible edge seam unless otherwise indicated, required for certifications, or part of our standard design.
 - Example: Steelcraft A14 door is standard filled edge and PW-Series is standard welded edge.
3. The default door style will be flush unless otherwise indicated.
4. The door undercut will default to 3/4" unless otherwise specified except for the following:
 - Hurricane product at Steelcraft and Republic will default to 3/8"
 - Sound (STC) doors at Republic are 3/8" for STC Eco (up to STC 47) and 1/4" for STC 48 and greater
 - Tornado Doors, PW-Series, are 3/4", but please note that typical undercut must provide 1/4" max between bottom of door and top of finished floor / threshold
5. Panic devices will be located per template location unless otherwise specified. This includes doors with light kits located below the exit device cross bar.
 - Mortise panic devices will be located to match each brand's standard strike location unless otherwise noted.
6. Pairs of doors with vertical rod devices:
 - Steelcraft will default to a wide inactive leaf unless otherwise specified
7. Republic, for all paired openings the frame header is undersized 1/16"

CONDITIONS OF SALE

1. **CONFORMANCE TO REGULATIONS** - Manufacture, shipment and delivery are subject to any prohibition, restriction, priority, allocation regulation or condition imposed by or on behalf of the United States of America which may prevent or interfere with fulfillment of this order.
2. **SELLER'S ACCEPTANCE** - Until accepted in writing on this form by Republic Doors & Frames ("Seller"), Buyer's order shall constitute an offer to purchase; when so accepted by Seller, this form shall constitute the entire contract between the parties [and Seller shall not be bound by any terms, conditions, representations, or warranties, express or implied, except as state herein]. It is understood by the parties, and Buyer hereby agrees, that no term or condition contained in any order submitted by Buyer which is inconsistent with, additional to or different from the terms and conditions stated herein shall be binding on Seller unless Specifically agreed to by Seller in a written acknowledgment or acceptance; unless Seller specifically so agrees, any inconsistent, additional or different terms or conditions appearing in any order submitted by Buyer shall be deemed waived by Buyer. Receipt by Buyer of Seller's acceptance of goods without prompt objection to the terms and conditions herein set forth shall constitute acceptance by Buyer of such terms and conditions. It is understood that Seller's acceptance of Buyer's order is subject to credit approval.
3. **GENERAL CONTRACT** - Seller shall not be bound by the provisions of any contract and related documents governing the general construction requirements except for that portion of the specifications, unless modified in Seller's Acknowledgment, which describes the scope of Sellers work.
4. **DELAY** - In no event shall Seller be liable for any claims for any consequential or any other damages resulting from failure or delay in delivery of material and/or field labor (if field labor is included as part of this order). Seller will endeavor to ship promptly and to make delivery on the date requested on the front hereof; however, time is not of the essence. It is understood that Seller cannot guarantee any time for delivery; that delivery to the initial carrier shall constitute delivery to Buyer; that Seller's responsibility ceases upon delivery in good order to such carrier; and that all goods are shipped at Buyer's risk. In any event, Seller will not be liable for any delay or failure in delivery or shipment of goods or for any default or failure to perform this contract, or for any damages suffered by reason thereof, when such delay, failure or default is directly or indirectly due to accident (in manufacture or otherwise), fire, flood, riot, war, embargo, labor dispute or stoppage, inadequate transportation, shortage of material or supplies, delay or default on the part of the Seller's vendor, regulation by any governmental authority or any like or dissimilar cause beyond Seller's control. In the event of the occurrence of any such cause or contingency, Seller may extend the delivery schedule of this contract for the duration of such cause or contingency or, at its option, cancel this contract in whole or in part without liability.
5. **PARTIAL DELIVERY** - Partial delivery shall be accepted by the Buyer and paid for at the price and on the terms herein stated. Any partial delivery of merchandise hereunder, whether or not provided for herein, shall constitute a separate sale, and payment therefor shall be separately made when due.
6. **CLAIMS** - Claim for errors, deficiencies or imperfections or delay not covered by Section 3 above will not be considered unless made in writing within 30 days after receipt of material. Seller, at its option, will replace or repair such materials as proven defective, or to allow for credit for their return. Seller will not accept the return of materials for credit or replacement without its previous written authority for such return. If materials appear defective, Buyer should discontinue their use and notify Seller Promptly so that Seller may investigate. Seller will not allow any claim for labor or expense occasioned by the use of defective materials, nor be responsible for damages beyond Seller's price of the defective material. Seller shall not be liable for any claims for consequential damages whether founded in contract or in tort. Risk of loss involving materials should be F.O.B. shipping point, even though transportation costs may be included in price. Risk of loss shall be borne by Buyer and Buyer shall pursue claims with the carrier in the event of loss or damage in transit. Seller shall not be liable for liquidated damages. Expenses in connection with detention of carrier's equipment at destination shall be for the account of Buyer. The remedies to Buyer hereunder are exclusive.
7. **INDEMNIFICATION** - Seller's obligation to indemnify Buyer for any cause, except for patent infringement as provided in this Acknowledgment shall be limited to the established sole negligent acts of Seller's agents and employees.
8. **CANCELLATION** - After acceptance of Seller, this contract may not be canceled or modified, or releases hereunder held be Buyer after the order is in process, except by Seller's written agreement. If any cancellation or modification is agreed to by Seller, Buyer will promptly pay all reasonable engineering and other expenses incurred by Seller prior to its agreement to such cancellation or to be incurred by Seller in connection with such modification.
9. **PAYMENT TERMS** - The terms of payment specified on the front hereof shall be subject to change or limitation by Seller at any time either before or after delivery of any part of the goods under this contract, and Seller may demand payment in cash before delivery. Delivery may be withheld or shipment stopped in transit on an accepted order without any liability on the part of the Seller if, in the Seller's opinion, Buyer's ability to pay for the goods on the terms and conditions stated herein is in doubt.
10. **LIENS** - Seller shall not be required to waive its right of Mechanic's Lien in advance of payment.

11. TAXES - Any tax, excise, duty or other governmental charge, whether federal, state, municipal or foreign, now or hereafter levied upon the manufacture, sales, use of shipment of goods contracted for or sold hereunder will be charged to and paid for by Buyer. Tax exemption certificates acceptable to such taxing authorities will be accepted in lieu of such payment.
12. SELLER'S OPTIONS - If Buyer shall fail to make payments on this or any other order in accordance with Seller's terms, or if Seller shall have any doubt as to Buyer's responsibility, Seller may suspend performance hereunder, except upon receipt of security satisfactory to Seller.
13. COLLECTION - In the event Seller is forced to place the Buyer's account for collection, Buyer agrees to pay all reasonable costs of collection including, but not limited to, reasonable attorney's fees and court costs.
14. QUANTITY, WEIGHT AND SIZE - Material, unless otherwise provided shall be invoiced in accordance with Seller's published schedules of weights, areas, bundles and standard lengths, which invoicing shall govern settlement in absence of a contrary showing.
15. SHOP PAINT - Where a shop coat of paint is specified, it shall mean one temporary protective coat of Seller's standard shop paint and no special treatment, field or permanent painting of any kind is included unless expressly stated on the face hereof.
16. CHANGES IN WORK - Subsequent changes in the scope of the work required of seller shall be subject to any adjustment in price to be agreed upon by Buyer and Seller prior to any obligation of Seller for such changes, and such adjustment shall not be affected by the decision of third parties.
17. LITERATURE AND DESIGN - Material unless otherwise provided shall be in accord with Seller's literature, unless modified in the interest of improvement, in which event it shall be deemed in accord with such literature. Seller assumes no responsibility for design prepared by others.
18. TRANSPORTATION ADJUSTMENT - When the price includes transportation it shall be adjusted to the increase or decrease in transportation rates at the time of shipment with rates at date this order is acknowledged.
19. INSPECTING AND TESTING - Seller shall not be liable for inspecting and testing charges unless expressly stated on the face hereof.
20. PATENTS - Seller shall indemnify and save harmless Buyer from any judgement for damages and cost which may be rendered against Buyer in any suit brought against Buyer on account of the infringement by the materials, per se, supplied by Seller hereunder of any United States patent, provided prompt written notice be given Seller of the bringing of any such suit and an opportunity be given Seller to settle or defend the same as Seller may see fit, provided further that every reasonable assistance which Seller may require in defending any such suit be rendered to Seller by Buyer, the foregoing states the entire liability of Seller to Buyer for patent infringement.
21. APPROVAL OF DRAWINGS - If Seller prepares drawings or placing details, approval thereof by the Buyer or his representative or the representative of the owner of the project for which Seller's materials are regarded as a final interpretation of all other documents, with respect to such drawings or details, and constitute authority for Seller to furnish material in accordance with those drawings or details.
22. DESIGN SAFETY FACTOR - Buyer agrees to any design safety factor provided in the products covered by this transaction is to accommodate variations in the properties of materials, manufacturing and operating conditions, and design assumptions, and under no condition should be considered as implying authorization for or protection against loads on such products which exceed the design limits.
23. COLLATERAL MATERIALS AND LABOR - This order does not include: collateral steel for fastening such material, ornamental iron, anchor bolts, glass, putty, glazing, glass cleaning, field painting, grouting, pointing, caulking, or any other material or labor unless expressly stated on the face hereof.
24. ARBITRATION - Neither Buyer or Seller shall be required to submit to arbitration in the event of any dispute unless Buyer and Seller shall agree in writing hereto at the time of such dispute, and arbitration is not to be a condition precedent, except by mutual agreement of the parties in writing, to the right of legal action by either part.
25. WARRANTY - Seller warrants to Buyer that it will, at its option and in its sole discretion, furnish F.O.B. McKenzie, TN (or other point of origin), a replacement for, repair, or refund the purchase price to Buyer of any goods of its manufacture or part or portion thereof proved to its satisfaction to be defective in workmanship for material under normal use and service within one year (365 days) from the date of delivery to such Buyer, provided that notice of such defect is given to Seller within such one year (365 days) period. Seller makes no warranty with respect to items on the reverse side here of supplied to Buyer by Seller but manufactured by others, except to the extent of any warranty given to Seller by such others. Buyer further agrees that Seller is not responsible for any other conditions over which Seller has no control. In no case shall Seller be liable for consequential damages arising from breach of any of the foregoing warranties. THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY OR IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, AND SELLER WILL NOT BE RESPONSIBLE FOR ANY DAMAGES WHATSOEVER, OR FOR ANY LABOR, TRANSPORTATION OR OTHER COSTS OR EXPENSES RELATING TO SUCH REPLACEMENT OR SUCH REPAIR, INCLUDING ANY INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES. This Warranty is for Buyer's exclusive benefit and is not assignable or transferable, nor is Buyer permitted to present to its customer, or any third party, that it may rely on the Warranty.

DP SERIES

Honeycomb/Polystyrene

Refer to technical data sheet on page 11

- Thickness: 1-3/4"
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Hinge Edge and Reinforcement: Hinge edge is square edge and includes reversible hinge filler plate. Standard 7 gauge hinge reinforcement.
- Lock Edge: Square edge, 14ga reinf. for mortise or 16ga for cylindrical locks. Compliant with ANSI A1115 standards.
- Edge Seams: Visible seam
- Top Channel: Top Channel is a 16 gauge flush channel, projection welded at a maximum 2-1/2" on center. (Optional - Inverted)
- Bottom Channel: Bottom Channel is an inverted 16 gauge channel, projection welded at a maximum 2-1/2" on center
- Face Skins: 20 gauge or 18 gauge, Cold rolled steel or A60 Galvannealed
- Closer Reinforcement (Optional): 14 gauge standard
- Size Availability: Please see price sheet for sizes as indicated
- SDI 100 Level/Model
 - Level 1 Model 1 (Standard Duty, minimum 20 gauge, hollow steel composite)
 - Level 2 Model 1 or 2 (Heavy Duty, minimum 18 gauge, hollow steel composite)
- Universal Hinge Prep: Allowing for an easy modification from standard to heavy weight hinge prep
- Handing Design: Square edge, non-handed

CORES AVAILABLE FOR DP DOORS

Honeycomb Core

- Efficient in 95% of all weather conditions
- STC rating 38 Inoperable Slab

Polystyrene Core

- Efficient in extreme weather conditions
- STC rating 35 Inoperable Slab

Bottom Channel

- 16 gauge steel channel (standard inverted)
- Approximate depth 9/16"

Top Channel

- 16 gauge steel channel (standard flush)
- 14 gauge closer reinforcement, when closer is requested

LOCK EDGE OF PAN

16 gauge cylindrical lock reinforcement with provisions for Gov't Series 160 or 161 cylindrical lock sets (2-3/4" backset) and ANSI A115.2 lock front

14 gauge mortise lock reinforcement with provisions for Gov't Series 86 mortise lockset and ANSI A115.1 lock front

Hinge edge with 7 gauge reinforcements

Shown: 4-1/2" hinges

HONEYCOMB

DL/DE Series

Refer to technical data sheet on page 11

- Door Thickness: 1-3/4" (14 gauge = 1-13/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Core: 3/4" Cell Honeycomb Core. STC rating of 38 (standard doors are not STC labeled. See STC doors for labeled doors)
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel (Optional 10 gauge - DE Series) projection welded at a maximum of 5" on center
 - Additional reinforcement plates are provided (DL Series) at the hinge locations to give a total of 3/16" reinforcement (Backset 1/4")
- Top Channel: Top channel is a flush 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is an inverted 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Lock Rail: Lock edge is square and reinforced with a continuous 16 gauge steel channel projection welded at a maximum of 5" on center (Optional - Beveled 1/8" in 2")
 - 16 gauge reinforcements for mortise or cylindrical locks are of an integral type in accordance with ANSI A115 standards
- Face Skins: 20 gauge, 18 gauge, 16 gauge, or 14 gauge (DE Series) (cold rolled steel or A60 galvanized)
 - G90 Galvanized available in 16 or 14 gauge only
- Closer Reinforcement: 14 gauge 18" x 6" (Optional 12 gauge)
- Size Availability
 - Max. 4'0" x 10'0" (Singles)
 - Max. 8'0" x 10'0" (Pairs)
- SDI 100 - Grade/Model: Levels 1-4 and Models 1 and 2 (Maximum Duty Performance level A)
- Label Range: 20 minute through 3 hour / Underwriters Laboratory or ITS/Warnock Hersey
- Edge Seam Construction: Visible seam is standard. Continuously welded seamless or intermittently welded seamless available. (Options)
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for easy modification from heavy to standard weight hinge prep
- Handing Design: Non-handed standard (Optional handed)

STEEL STIFFENED

DL/DE Series

Refer to technical data sheet on page 11

- Door Thickness: 1-3/4" (14 gauge = 1-13/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Core: Fiberglass batting between each stiffener
 - "U" Factor = 0.61
 - "R" Factor = 1.65
 - (Optional) Polystyrene or polyurethane between stiffeners
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded at a maximum of 5" on center. (Optional 10 gauge)
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded at a maximum of 5" on center. (Optional 14 gauge) (Beveled 1/8" in 2" optional)

- Top Channel: Top channel is a flush 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is an inverted 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Face Skins: 18 gauge, 16 gauge, or 14 gauge (cold rolled steel or A60 galvanized)
 - * G90 Galvanized available in 16 or 14 gauge only
- Stiffener Gauge: 20 gauge (Optional 18 or 16 gauge)
- Stiffener Spacing: 6" maximum apart (Varies according to door width)
- Stiffener Welding: 5" maximum on center (Vertically)
- Closer Reinforcement: 14 gauge 18" x 6" (Optional 12 gauge)

- Size Availability
 - Max. 4'10" x 10'0" (Singles)
 - Max. 9'8" x 10'0" (Pairs) (max. 18 ga - 4'0" x 8'0")
- SDI 100 - Grade/Model: Levels 2-4 and Models 1 and 2 (Maximum Duty Performance level A)
- Label Range: 20 minute through 3 hour/ Underwriters Laboratory or ITS/Warnock Hersey (Not available in urethane)
- Edge Seam Construction: Visible seam (standard), continuously welded seamless or intermittently welded seamless available
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for easy modification from standard to heavy weight hinge prep
- Handing Design: Non-handed standard (Optional handed)

EMBOSSSED

DL/DE Series

Refer to technical data sheet on page 11

- Door Thickness: 1-3/4" (1-3/8" available in 6-Panel only)
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Core: 1 to 1.25 lb. density Polystyrene (standard)
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel (Optional 10 gauge - DE Series) projection welded at a maximum of 5" on center
 - Additional reinforcement plates are provided at the hinge locations to give a total of 3/16" reinforcement (Backset 1/4")
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded at a maximum of 5" on center (Optional - Beveled 1/8" in 2")
 - 16 gauge reinforcements for mortise or cylindrical locks are of an integral type in accordance with ANSI A115 standards
- Top Channel: Top channel is a flush 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is an inverted 16 gauge steel channel, projection welded at a maximum of 2-1/2" on center
- Face Skins: 18 or 16 - Faces shall be deep drawn embossed raised panels, both inside and out (16 gauge only available in 6-panel)
- Closer Reinforcement: 14 gauge 18" x 6" (Optional 12 gauge)
- Size Availability
 - Minimum 2'8" x 6'8"
 - Maximum 3'2" x 8'0"
 - (Optional - 3'0" x 8'0", 6-Panel design with elongated panel embossments)
- SDI 100 - Grade/Model: Levels 1-3 and Models 1 and 2 (Maximum Duty Performance level A)
- Label Range: 20 minute through 3 hour/Underwriters Laboratory or ITS/Warnock Hersey
- Edge Seam Construction: Visible seam is standard. (Optional) Continuously welded seamless or intermittently welded seamless available (Not available in 20 gauge)
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for easy modification from standard to heavy weight hinge prep
- Handing Design: Non-handed standard (Optional handed)

Dutch door	\$353.00
Unifit hinge channel	\$95.00
Seal top or bottom channel and finish smooth each	\$150.00
Mag switch/DPS - Hole only	\$25.00
Mag switch/DPS - Prep and reinf.	\$131.00
Bondo filled edge	\$128.00
Continuous welded edge (N/A in 20 gauge)	\$192.00
Beveled lock edge (1/8" in 2")	\$23.00
10 Gauge hinge and 14 gauge lock channels (DE Series - standard on 14 gauge door)	\$166.00
1-3/8" Thick door (6 Panel only) DE (See Engineering)	\$166.00
Door viewer	\$32.00
Mail slot	\$91.00
Automatic door bottom (mortise type)	\$239.00
Conduit/raceway - includes wire pull	\$202.00

INACTIVE LEAF PREPARATIONS	
Flush bolt embossed top/bottom channel	No charge
Cylindrical (2-3/4") or mortise (3-1/2") dead lock strike	\$65.00
Electric strike (no conduit)	\$143.00
ASA Strike only	\$63.00
Attaching astragal (includes astragal)	\$116.00
Flush bolt prep (ANSI 115.4)	\$101.00
Surface bolt reinforce only	\$38.00
Open back strike	\$171.00

LABEL PREPARATIONS	
Mark numbers	No charge
U.L. Mylar label (standard unless specified otherwise)	\$22.00
U.L. Metal label	\$51.00
Warnock Hersey Metal Label	\$51.00
Hurricane label (See Engineering Section)	\$22.00

LOCK PREPARATIONS	
Special lock location	No charge
Special lock backset up to 5"	No charge
Sectional trim prep (mortise lock with function holes)	No charge
Cylindrical dead lock	\$65.00
Mortise dead lock	\$65.00
Rim reinforcement only	\$54.00
Rim reinforcement with function prep	\$60.00
Mortise exit device reinforcement only	\$39.00
Mortise exit device reinforcement with function prep	\$95.00
Allegion Mortise exit device reinforcement with function prep	\$76.00
Concealed vertical rod	\$648.00
Allegion Concealed vertical rod <ul style="list-style-type: none"> Frame mortise strike (per prep) Door per template 	\$515.00
Surface vertical rod reinforcement only	\$87.00
Surface vertical rod reinforcement with function prep	\$105.00
Allegion Surface vertical rod reinforcement with function prep	\$93.00
Exit alarm reinforcement only	\$66.00
Inset exit device (16 gauge doors only)	Consult Factory
Push pull reinforcement	\$42.00

SPECIAL FINISH PREPARATIONS	
Second coat of primer	\$132.00
Finish paint setup charge (never waived)	\$1,433.00
Finish paint <ul style="list-style-type: none"> Minimum quantity of 20 per color Price includes full carton wrap 	\$360.00

GLASS KIT OPTIONS			
	Vision/ Narrow Lite up to 100 inch ²	Half Glass over 100 inch ² up to 800 inch ²	Full Glass over 800 inch ²
Cutout with kit installed	N/A	N/A	N/A
Cutout with kit and reinf.	\$332	\$377	\$421
Sunburst kit (1/2" glass included)	\$594	N/A	N/A
Muntin bar (each)	\$160	\$160	\$160
Galvanized kit add	\$131	\$131	\$131
Glass pocket add (other than 1/4")	\$221	\$221	\$221

Prices are based on Republic standard lite kit. (No glass unless noted otherwise.)

See [Engineering Section](#) for further options and/or details.

CUTOUT ONLY OPTIONS (GLASS KITS & LOUVERS)			
	Up to 100 inch ²	Over 100 inch ² up to 800 inch ²	Over 800 inch ²
Panel in place	N/A	N/A	N/A
Cutout only	N/A	N/A	N/A
Cutout with reinforcement	\$181	\$181	N/A
Round cutout only (no reinf)	N/A	N/A	N/A

HINGE PREPARATIONS	
Special hinge locations	No charge
4-1/2" or 5" Universal hinge prep	No charge
Additional hinge prep (per hinge)	\$27.00
Electric hinge <ul style="list-style-type: none"> Cutout in one hinge reinf. No wiring included, no conduit 	\$27.00
Surface mounted hinges (reinforced only)	\$121.00
Continuous hinge reinforcement	\$94.00
Special backset (per hinge)	\$139.00
Power transfer (no conduit)	\$145.00

STEEL TYPE	
Cold rolled steel	N/A
A40 Galvanized Steel	Included

See [Engineering Section](#) for further options and/or details.

this page intentionally blank

ME SERIES

Universal frames

Refer to technical data sheet on page 12 and 13

- Thickness: Made for two basic door thicknesses, 1-3/8" or 1-3/4" (Consult factory for optional thicknesses)
 - Gauges: 16 or 14 (12 gauge available with coped corner connections for welding)
 - Faces: 1" to 4"
 - Standard Rabbits
 - 1-3/8" (actual dimension 1-9/16")
 - 1-3/4" (actual dimension 1-15/16")
 - Rabbet dimension is 3/16" greater than the door thickness
 - Stop: 5/8" standard
 - Closer Reinforcement (Optional): 1-3/8" x 14" x 14 gauge plate
 - Size Availability
 - Maximum Size 5'0" x 10'0" Single
 - Maximum Size 10'0" x 10'0" Double
 - Label Range: Maximum fire rating 180 minute
 - Hinge Backset: 5/16"
 - Backbend: 7/16" (Single Return)
- Universal Standard/Heavy Weight Hinge
 - Frames for 1-3/4" doors shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges. Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate.
 - Frames for 1-3/8" doors shall have a 11 gauge steel hinge reinforcement plate, projection welded with provisions for 3-1/2" x 3-1/2" standard weight template hinges
 - Strike Prep
 - Frames for 1-3/4" doors shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge, projection welded with provisions for Universal ANSI A115.1 or ANSI A115.2 strike (4-7/8")
 - Frames for 1-3/8" doors shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge projection welded with provision for Universal ANSI A115.3 strike (2-3/4")
 - Anchors: Sill anchors are included with all ME frames. All other anchors must be ordered separately.
 - Silencer Prep: 9/32" dia. holes shall be provided as standard on strike jambs and double headers, (3 per strike jamb and 2 per double head). Mutes are not supplied and must be ordered separately.
 - Double Heads: Double heads are undersized 1/16" (except for cased open heads, which are nominal)
 - Mortar Guards: Mortar guards of 26 gauge steel shall be welded to each hinge and strike reinforcement plate
 - Profiles: Equal Rabbet, Unequal Rabbet, Single Rabbet, Double Egress, Cased Opening and Kerf (Special profiles available, consult factory)
 - Handing: Frames are handed

Description	List add
Special hinge locations	No charge
4-1/2" or 5" Universal hinge prep	No charge
Additional hinge prep (per hinge)	\$25.00
4" Template hinge prep (square corner only) (per hinge)	\$62.00
Electric hinge <ul style="list-style-type: none"> One 1/2" dia. hole in one hinge reinf. No wiring included, no junction box 	\$25.00
Continuous hinge reinforcement (rabbet or face)	\$88.00
Power transfer (no junction box)	\$111.00

See [Engineering Section](#) for further options and/or details.

FRAME - STRIKE PREPARATIONS	
Description	List add
Special strike location	No charge
Standard strike at non standard location	No charge
Cylindrical dead lock (2-3/4" strike)	\$25.00
Mortise dead lock (3-1/2" strike)	\$25.00
Unit lock/double strike prep (ex. Schlage H)	N/A
Rim reinforcement only	\$33.00
Surface vertical rod reinforcement only	\$33.00
Concealed vertical rod (mortise strike) (per prep)	\$73.00
Exit alarm reinforcement only	\$33.00
Electric strike (no junction box)	\$107.00
Flush bolt strike prep/reversible or automatic	\$63.00
Surface bolt reinforce only	\$33.00

CLOSER PREPARATIONS	
Description	List add
Closer reinforcement - 14 GA Plate - RA or PA	\$33.00
Full depth reinforcement (price per foot)	\$35.00
Concealed overhead door closer, holder or stop	\$307.00
Allegion Concealed overhead door closer, holder or stop	\$278.00

MH SERIES

Drywall frames

Refer to technical data sheet on page 14

- Thickness: Made for two basic door thicknesses, 1-3/8" or 1-3/4" (Consult factory for optional thicknesses)
- Gauges: 16 or 14
- Faces: 1-1/4" to 4"
- Standard Rabbits
 - 1-3/8" (actual dimension 1-9/16")
 - 1-3/4" (actual dimension 1-15/16")
 - Rabbet dimension is 3/16" greater than the door thickness
- Stop: 5/8" standard
- Closer Reinforcement (Optional): 1-3/8" x 14" x 14 gauge plate
- Size Availability
 - Maximum Size 5'0" x 10'0" Single
 - Maximum Size 10'0" x 10'0" Double
- Label Range: Maximum fire rating 90 minute with compression anchors
- Hinge Backset: 5/16"
- Backbend: 1/2" (Double Return)
- Universal Standard/Heavy Weight Hinge
 - Frames for 1-3/4" doors shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges. Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate
 - Frames for 1-3/8" doors shall have a 11 gauge steel hinge reinforcement plate, projection welded with provisions for 3-1/2" x 3-1/2" standard weight template hinges
- Strike Prep
 - Frames for 1-3/4" doors shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge, projection welded with provisions for Universal ANSI A115.1 or ANSI A115.2 strike (4-7/8")
 - Frames for 1-3/8" doors shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge projection welded with provision for Universal ANSI A115.3 strike (2-3/4")
- Anchors: Welded in compression anchors with loose sill anchors and hole plugs (Ordered separately)
- Silencer Prep: 9/32" dia. holes shall be provided as standard on strike jambs and double headers, (3 per strike jamb and 2 per double head). Mutes are not supplied and must be ordered separately.
- Double Heads: Double heads are undersized 1/16" (except for cased open heads, which are nominal)
- Profiles: Equal Rabbet, Unequal Rabbet, Single Rabbet, Double Egress, Cased Opening and Kerf. (Special profiles available, consult factory)
- Handling: Frames are handed

SPECIAL CONSTRUCTIONS	
Description	List add
Special width (use next larger size)	No charge
Special height (use next larger size)	No charge
Communicating (6) 4.5" hinge preps x (2) ASA preps	\$88.00
Dutch prep (4) 4.5" hinge preps x ASA prep	\$91.00
Cap top or bottom of jamb (each)	\$147.00
Mag switch/DPS - Hole only	\$25.00
Mag switch/DPS - Prep and reinf. (no junction box)	\$97.00
Hospital stop (galv) up to 6"	\$238.00
8" Junction box welded in	N/A
14" Junction box welded in	N/A
10" Junction box welded in soffit	\$34.00

LABEL PREPARATIONS	
Description	List add
Mark numbers	No charge
U.L. Mylar label (standard unless specified otherwise)	\$24.00
U.L. Metal label	\$31.00
ITS/Warnock Hersey Metal label	\$31.00

1. Maximum fire rating 1-1/2 hour with compression anchors.
2. Single rabbet min 3", max 4-3/8" depth.
3. Double rabbet min 4-1/2", max 15" depth.

SPECIAL FINISH PREPARATIONS	
Description	List add
Second coat of primer	\$123.00
Finish paint setup charge (never waived)	\$1,433.00
Finish paint <ul style="list-style-type: none"> ▪ Minimum quantity of 20 frames per color ▪ Price includes full carton wrap 	\$360.00

Finish paint unavailable on welded frames.

ANCHOR OPTIONS	
Description	Price adj.
Welded in anchor (per anchor)	\$7.50
Omit drywall compression anchor (deduct)	-\$6.00
Embossed hole at bottom face	No charge

Drywall frames standard with (1) each compression anchor per jamb.

FRAME CONSTRUCTION	
Description	List add
Unit bundle (3pc)	\$7.00
Standard face weld (3pc) (omit compression anchor)	\$121.00
Full profile weld (3pc) (omit compression anchor)	\$220.00

FRAME PROFILE OPTIONS	
Description	List add
No returns	No charge
Cased open	No charge
Single rabbet	No charge
4" Face heads (through 4'0")	\$64.00
4" Face heads (over 4'0")	\$89.00
Non-standard face - per frame (1" – 3-7/8" uniform)	\$79.00
Non-standard rabbet (per frame)	\$261.00
Kerf (includes weather-stripping) (16 gauge only)	\$194.00

STEEL TYPES	
Description	List add
Cold rolled steel	Included
A60 Galvanized steel	\$61.00
G90 Galvanized steel (available in 14 and 16 gauge only)	\$108.00
12 Gauge - N/A with drywall returns	N/A

HINGE PREPARATIONS	
Description	List add
Special hinge locations	No charge
4-1/2" or 5" Universal hinge prep	No charge
Additional hinge prep (per hinge)	\$25.00
Electric hinge <ul style="list-style-type: none"> One 1/2" dia. hole in one hinge reinf. No wiring included, no junction box 	\$25.00
Continuous hinge reinforcement (rabbet or face)	\$88.00
Power transfer (no junction box)	\$111.00

See [Engineering Section](#) for further options and/or details.

FRAME - STRIKE PREPARATIONS	
Description	List add
Special strike location	No charge
Standard strike at non-standard location	No charge
Cylindrical dead lock (2-3/4" strike)	\$25.00
Mortise dead lock (3-1/2" strike)	\$25.00
Unit lock/double strike prep (ex. Schlage H)	N/A
Rim reinforcement only	\$33.00
Surface vertical rod reinforcement only	\$33.00
Concealed vertical rod (mortise strike) (per prep)	\$73.00
Exit alarm reinforcement only	\$33.00
Electric strike (no junction box)	\$107.00
Flush bolt strike prep/reversible or automatic	\$63.00
Surface bolt reinforce only	\$33.00

CLOSER PREPARATIONS	
Description	List add
Closer reinforcement - 14 gauge plate - RA or PA	\$33.00
Full depth reinforcement (price per foot)	\$35.00
Concealed overhead door closer, holder or stop	\$307.00
Allegion Concealed overhead door closer, holder or stop	\$278.00

ME SERIES

Double egress

Refer to technical data sheet on page 12 and 13

- Double Egress Openings are designed to permit the flow of traffic in two directions through the same opening
 - All double egress openings shall be supplied as right hand swing unless otherwise specified
- Fire Labeled: Maximum 3 hour
- Face: 1-3/8" standard, 2" optional
- Universal Standard/Heavy Weight Hinge: Frames for 1-3/4" doors shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges. Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate.
- Frames for 1-3/8" doors shall have a 11 gauge steel hinge reinforcement plate, projection welded with provisions for 3-1/2" x 3-1/2" standard weight template hinges
- Hinge Backset: 5/16"
- Backbend: 7/16" (Single Return)

STEEL TYPES

Cold rolled steel	Included
A60 Galvanized steel	\$61.00
G90 Galvanized steel (available in 14 and 16 gauge only)	\$108.00
12 Gauge - see Cut-N-Notch	N/A

HINGE PREPARATIONS

Special hinge locations	No charge
4-1/2" or 5" Universal hinge prep	No charge
Additional hinge prep (per hinge)	\$25.00
Electric hinge <ul style="list-style-type: none"> One 1/2" dia. hole in one hinge reinf. No wiring included, no junction box 	\$25.00
Continuous hinge reinforcement (rabbet)	\$88.00
Power transfer (no junction box)	\$111.00

FRAME - STRIKE PREPARATIONS

Surface vertical rod reinforcement only	\$33.00
Concealed vertical rod (mortise strike) (per prep)	\$73.00

CLOSER PREPARATIONS

Closer reinforcement - 14 gauge plate - RA or PA	\$33.00
Full depth reinforcement (price per foot)	\$35.00
Concealed overhead door closer, holder or stop	\$307.00
Allegion Concealed overhead door closer, holder or stop	\$278.00

SPECIAL CONSTRUCTIONS

Special width (use next larger size)	No charge
Special height (use next larger size)	No charge
Mag switch/DPS - Hole only	\$25.00
Mag switch/DPS - Prep and reinf. (no junction box)	\$97.00
8" Junction box welded in	\$34.00
10" Junction box welded in soffit	\$34.00
14" Junction box welded in	\$34.00

LABEL PREPARATIONS

Mark numbers	No charge
U.L. Emboss (must specify)	No charge
U.L. Mylar label (standard unless specified otherwise)	\$24.00
U.L. Metal label	\$31.00
ITS/Warnock Hersey Metal label	\$31.00

Fire rating - max depth 14". Heads will have anchors welded in.

SPECIAL FINISH PREPARATIONS

Second coat of primer	\$123.00
Finish paint setup charge (never waived)	\$1,433.00
Finish paint <ul style="list-style-type: none"> Minimum quantity of 20 frames per color Price includes full carton wrap 	\$360.00

Finish paint unavailable on welded frames.

ANCHOR OPTIONS

Welded in prepared opening anchor (per anchor)	\$17.00
Welded in anchor (per anchor)	\$7.50
Punch and dimple only (per prep)	\$6.00

Prepared Opening Frames up 7'1" require 8 anchors (max 8-3/4" depth). Over 7'2" thru 10'0" require 10 (max 8-3/4" depth). Frames over 8-3/4" receive double the quantity and price.

FRAME CONSTRUCTION

Unit bundle (3pc)	\$7.00
Standard face weld (3pc)	\$121.00
Full profile weld (3pc)	\$220.00

FRAME PROFILE OPTIONS

No returns	No charge
Non-standard face - see Cut-N-Notch section	N/A
2" Face	No charge

See [Engineering Section](#) for further options and/or details.

MH SERIES

Double egress

Refer to technical data sheet on page 14

- Double Egress Openings are designed to permit the flow of traffic in two directions through the same opening
- Face: 2"
- Universal Standard/Heavy Weight Hinge: Frames for 1-3/4" doors shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges.
- Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate.
- Hinge Backset: 5/16"
- Backbend: 1/2" (Double Return)

Double Egress Corner

Double Egress Hinge

Compression Anchor (Standard)

DOOR & FRAME HANDING CHART

Left Hand Swing

Right Hand Swing

Rough Opening Required for DW Double Egress Frame Based on (1) compression anchor located on door rabbit (per jamb)

Door width opening + 3"

Door height opening + 1"

2" Face (standard)

STEEL TYPES	
Cold rolled steel	Included
A60 Galvanized steel	\$61.00
G90 Galvanized steel (available in 14 and 16 gauge only)	\$108.00
12 Gauge (N/A on drywall frame)	N/A

HINGE PREPARATIONS	
Special hinge locations	No charge
4-1/2" or 5" Universal hinge prep	No charge
Additional hinge prep (per hinge)	\$25.00
Electric hinge <ul style="list-style-type: none"> One 1/2" dia. hole in one hinge reinf. No wiring included, no junction box 	\$25.00
Continuous hinge reinforcement (rabbet)	\$88.00
Power transfer (no junction box)	\$111.00

FRAME - STRIKE PREPARATIONS	
Surface vertical rod reinforcement only	\$33.00
Concealed vertical rod (mortise strike) (per prep)	\$73.00

CLOSER PREPARATIONS	
Closer reinforcement - 14 gauge plate - RA or PA	\$33.00
Full depth reinforcement (price per foot)	\$35.00
Concealed overhead door closer, holder or stop	\$307.00
Allegion Concealed overhead door closer, holder or stop	\$278.00

SPECIAL CONSTRUCTIONS	
Special width (use next larger size)	No charge
Special height (use next larger size)	No charge
Mag switch/DPS - Hole only	\$25.00
Mag switch/DPS - Prep and reinf. (no junction box)	\$97.00
8" Junction box welded in	\$34.00
14" Junction box welded in	\$34.00
10" Junction box welded in soffit	\$34.00

LABEL PREPARATIONS	
Mark numbers	No charge
U.L. Emboss (must specify)	N/A
U.L. Mylar label (standard unless specified otherwise)	N/A
U.L. Metal label	N/A
ITS/Warnock Hersey Metal label	N/A

Fire rating not available.

SPECIAL FINISH PREPARATIONS	
Second coat of primer	\$123.00
Finish paint setup charge (never waived)	\$1,433.00
Finish paint <ul style="list-style-type: none"> Minimum quantity of 20 frames per color Price includes full carton wrap 	\$360.00

Finish paint unavailable on welded frames.

ANCHOR OPTIONS	
Welded in prepared opening anchor (per anchor)	\$17.00
Welded in anchor (per anchor)	\$7.50
Punch and dimple only (per prep)	\$6.00

Prepared Opening Frames up 7'1" require 8 anchors (max 8-3/4" depth). Over 7'2" thru 10'0" require 10 (max 8-3/4" depth). Frames over 8-3/4" receive double the quantity and price.

FRAME CONSTRUCTION	
Unit bundle (3pc)	\$7.00
Standard face weld (3pc) (omit compression anchor)	\$121.00
Full face weld (3pc) (omit compression anchor)	\$220.00

FRAME PROFILE OPTIONS	
No returns	No charge
Non-standard face - see Cut-N-Notch	N/A
2" Face	No charge

See [Engineering Section](#) for further options and/or details.

LEAD LINED DOORS AND FRAMES

Specialty

Refer to technical data sheet on page 16
Typical construction based on DL Series door

DOOR

- Lead Thickness: 1/16" standard
- Edge Seam Construction: Visible seam
- Thickness: 1-3/4"
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 10 or 16 gauge steel channel projection welded at a maximum 5" on center
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 or 14 gauge steel channel projection welded at a maximum 5" on center. (Beveled lock edge 1/8" in 2" optional.)
- Top Channel: Top Channel is a flush 16 gauge steel channel, projection welded at a maximum 2-1/2" on center
- Bottom Channel: Bottom Channel is an inverted 16 gauge steel channel, projection welded at a maximum 2-1/2" on center
- Cores Available: Steel Stiffened core
- Face Skins: Galvannealed, 18 gauge, 16 gauge or 14 gauge
- Closer Reinforcement (Optional): When closer reinforcement requested 14 gauge standard/12 gauge optional. (18" x 6")
- Size Availability
 - Maximum 4'10" x 10'0" (Singles)
 - Maximum 9'8" x 10'0" (Pairs)
- SDI 100 Level/Model: Level 2-4 Model 1 (Maximum Duty Performance Level A and B)
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for an easy modification from standard to heavy weight hinge prep
- Handing Design: Non-Handed standard (Handed optional)

FRAME

- Thickness: Made for standard door 1-3/4"
- Gauges: 16 or 14 (12 gauge available with coped corner condition for welding)
- Faces: 2" standard
- Standard Rabbits
 - 1-3/8" (actual dimension 1-9/16")
 - 1-3/4" (actual dimension 1-15/16")
 - Rabbit dimension is 3/16" greater than the door thickness.
- Stop: 5/8" standard
- Closer Reinforcement (Optional): 1-3/8" x 14" x 14 gauge plate
- Size Availability
 - Maximum Size 4'10" x 10'0" Single
 - Maximum Size 9'8" x 10'0" Double
- Universal Standard/Heavy Weight Hinge: Frames for 1-3/4" doors shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges. Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate.
- Strike Prep: Frames for 1-3/4" doors shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge, projection welded with provisions for Universal ANSI A115.1 or ANSI A115.2 strike (4-7/8")
- Hinge Backset
 - Frame = 5/16"
 - Door = 1/4"

BULLET RESISTANT DOORS AND FRAMES

Specialty

Refer to technical data sheet on page 16

DOOR

- Door Thickness: 1-13/16" (+/- 1/16")
- Edge Seam Construction: Seamless
- Actual Door Size: Door undersized from nominal by 1/4" in width and 7/8" in height. Standard undercut is 3/4".
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 10 gauge steel channel projection welded at a maximum 5" on center. (Backset 1/4")
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 14 gauge steel channel projection welded at a maximum 5" on center. 16 gauge reinforcements for mortise or cylindrical locks are of an integral type in accordance with ANSI A115 Standards.
- Top Channel: Top Channel is a flush 16 gauge channel, projection welded at a maximum 2-1/2" on center
- Bottom Channel: Bottom Channel is an inverted 16 gauge steel channel, projection welded at a maximum 2-1/2" on center
- Cores Available
 - Polystyrene Levels 1
 - Polystyrene with armor plating Levels 2-3
 - Mineral wool or fiberglass batting with armor plating Levels 4-8
- Face Skins: 14 gauge (cold rolled steel or A60 Galvannealed)
- Handing Design: Non-Handed (Handed optional)
- Closer Reinforcement (Optional): Only available on Levels 1-3. Closer reinforcement not necessary on levels 4-8 due to plating in construction requirements.
- Size Availability
 - Minimum 1'0" x 1'0"
 - Maximum 4'10" x 10'0"
- SDI 100 Level/Model: Level 4 Model 2
- Universal Standard/Heavy Weight Hinge: Levels 1, 2, and 3 are prepped for (3) 4-1/2" or 5" butt hinges up to 3476 nominal size opening. Over 3476 and Levels 4-8 (all sizes) are prepped for (4) 4-1/2" or 5" butt hinges or continuous hinge application.

FRAME

- Frame Thickness: Made to accommodate 14 gauge door - 2" rabbet (+/- 1/16")
- Gauges: 14 gauge only
- Stop: 5/8" standard
- Closer Reinforcement (Optional): 1-3/8" x 14" x 14 gauge plate
- Universal Standard/Heavy Weight Hinge: Frames shall have a 7 gauge steel hinge reinforcement plate, projection welded with provisions for 4-1/2" x 4-1/2" template hinges. Hinge plate is designed to be modified to accept a heavy weight hinge by removing spacer plate.
- Strike Prep: Frames shall have a 14 gauge steel strike reinforcement plate, extruded and formed to the equivalent of 10 gauge, projection welded with provisions for Universal ANSI A115.1 or ANSI A115.2 strike (4-7/8")
- Hinge Backset
 - Frame = 5/16"
 - Door = 1/4"
- Backbend: 7/16" (Single Return)
- Anchors: Level 1 only - Snap in universal anchor and masonry tee. All Levels - Masonry wire, Prepared Opening Anchors, and adjustable strap anchors.
- Double Heads: Double heads are undersized 1/16"
- Silencer Prep: 9/32" dia. holes shall be provided as standard on strike jambs and double headers, (3 per strike jamb and 2 per double head). Mutes are not supplied and must be ordered separately.
- Mortar Guards: Mortar guards of 26 gauge steel shall be welded to each hinge and strike reinforcement plate
- Profiles: Equal Rabbet, Unequal Rabbet, Single Rabbet not available.
- Handing: Frames are handed

Finish paint setup charge (never waived)	N/A	N/A
Finish paint <ul style="list-style-type: none">Minimum quantity of 20 colorPrice includes full carton wrap	N/A	N/A

ANCHOR OPTIONS		
Description	Door	Frame
Welded in prepared opening anchor (per anchor)	N/A	\$17.00
Welded in anchor (per anchor)	N/A	\$7.50
Punch and dimple only (per prep)	N/A	\$6.00

Prepared Opening Frames up 7'1" require 8 anchors (max 8-3/4" depth). Over 7'2" thru 10'0" require 10 (max 8-3/4" depth). Frames over 8-3/4" receive double the quantity and price.

FRAME CONSTRUCTION		
Description	Door	Frame
Unit bundle (3pc)	N/A	N/A
Standard face weld (3pc)	N/A	Included
Full profile weld (3pc)	N/A	\$220.00

FRAME PROFILE OPTIONS		
Description	Door	Frame
Single rabbet	N/A	N/A
4" Face heads (through 4'0")	N/A	\$64.00
4" Face Heads (over 4'0")	N/A	\$89.00
Non-standard face - per frame	N/A	\$79.00

Non-standard face is Level 1 only.

DOUBLE SWING PREPARATION		
Description	Door	Frame
Attaching astragal (includes bullet flat bar astragal, Levels 1–3 only, required)	\$691.00	N/A
Flush bolt prep (ANSI 115.4) (Levels 1–3 only)	\$101.00	\$63.00
Surface bolt reinforce only (Levels 1–3 only)	\$38.00	\$33.00
Open back strike	N/A	N/A

GLASS KIT OPTIONS			
Up to and including Level 3 only	Vision/ Narrow Lite up to 100 inch²	Half Glass over 100 inch² up to 800 inch²	Full Glass over 800 inch²
Anemostat BR7 Kit	\$1,784.00	\$2,922.00	N/A

Anemostat BR7 Kit is kit only, approved glass by others.

See [Engineering Section](#) for further options and/or details.

PALADIN™ SERIES
1-3/4" Tornado Resistant doors and frames

DF Tornado doors and frames are no longer available through Republic. They are now processed and fulfilled through Steelcraft as Paladin PW doors and FP frames.

- Send orders directly to SteelcraftOrderEntry@allegion.com or refer to [Working with Steelcraft](#).
- Purchase Orders sent to Republic will be forwarded to Steelcraft order entry for processing through Steelcraft as Paladin.

For product information and downloads, please visit: [Steelcraft's Paladin PW Series](#).

HUR(I) DL/DE SERIES IMPACT DP/DL/DE SERIES NON-IMPACT

Hurricane and wind resistance

Hurricane Impact assemblies require specially constructed DL/DE doors identified as HUR(I) prefix.

Non-Impact/E330 labeled openings may also use standard DP/DL/DE doors.

See DP/DL/DE pages for pricing and options.

- Door Thickness: 1-3/4" (14 gauge = 1-13/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 1/2" in height. Std undercut 3/8" or per listing threshold requirements.
- Core: Honeycomb Core. Optional Polystyrene, Stiffened, Polyurethane (non-fire label), Temp Rise
- Hinge Rail and Reinforcement: 10 gauge hinge reinforcements. Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded at a maximum of 5" OC (optional 10 ga - DE Series).
- Lock Rail: Lock edge is non-beveled (bevel 1/8" in 2" option) and reinforced with hurricane channel and a continuous 16 gauge steel channel projection welded at a maximum of 5" OC (optional 14 gauge - DE Series).
- Top Channel: Top channel is a flush 16 gauge steel channel, projection welded at a max 2-1/2" OC
- Bottom Channel: Bottom channel is an inverted 16 gauge steel channel, projection welded max 2-1/2" OC
- Face Skins: HUR(I) 16 gauge or 14 gauge A60 galvanized steel (G90 Galv option by special request)
- See FBC and TDI Third Party (FBC) listings, RepublicDoor.com, hurricane section ordering tools for more information on approved offerings and ordering
- Closer Reinforcement: 14 Gauge 18" x 6" (Optional 12 Gauge)
- Size Availability
 - Max. 4'0" x 8'0" (Singles)
 - Max. 8'0" x 8'0" (Pairs)
- SDI 100 - Grade/Model for HUR(I) Impact: Levels 3-4 and Models 1 and 2 (Extra Heavy Duty and Maximum Duty Commercial and Institutional)
- Fire Label Range: 20 minute through 3 hour/ Underwriters Laboratory or Warnock Hersey
- Windstorm Labels: FBC labels supporting FBC and TDI
 - FBC Impact
 - FBC E330 Non-Impact (See standard DP/ DL/DE product pricing)
- Edge Seam Construction: Visible seam is standard. Continuously welded seamless or intermittently welded seamless available. (Options)
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for easy modification from heavy to standard weight hinge prep
- Handing Design: Non-handed standard (Optional handed)

Hurricane impact assemblies include extra heavy duty windstorm resistant door construction per listing approvals.

Standard frames are used with anchors/locations and details as specified in listing approvals.

Assembly with standard Honeycomb (optional cores available).

Refer to Listings and COACH validations for all available door, frame and hardware options.

SOUND TRANSMISSION CONTROL (STC) ECO

Specialty

Refer to technical data sheet on page 16

SOUND TRANSMISSION CONTROL (STC) 40, 42, 43 and 47 DOORS

- Thickness: 1-3/4" (+/- 1/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 1/2" in height. Standard undercut is 3/8". Undercut contingent on threshold.
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded to each skin at a maximum of 5" on center. Hinge channels have an additional 9 gauge reinforcement at each hinge location, providing over 3/16" reinforcement (Backset 1/4")
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 gauge steel channel. 16 gauge reinforcements for mortised or cylindrical locks are of an integral type in accordance with ANSI A115 standards.
- Top Channel: Top channel is flush 16 gauge channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is 16 gauge flush, projection welded at a maximum of 2-1/2" on center
- Core: Proprietary Sound Core
- Face Skin: 16 gauge, Cold Roll Steel, A60 Galvannealed or G90 Galvanized
- Closer Reinforcement (Required): 14 gauge standard
- Size Availability: Maximum 4'0" x 8'0"
- SDI 100 Grade/Model: Grade 3/Model 1 – 2 (Physical Performance Level A)
- Edge Seam Construction: Visible edge seam standard. Optional - Intermittently welded or Continuously welded edge seam.
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for an easy modification from standard to heavy weight hinge Prep: 4-1/2" hinges standard.
- Handing Design: Non-Handed standard/Optional Handed design

STC 40 – 6 PANEL EMBOSSED SOUND TRANSMISSION CONTROL (STC) 40 DOORS

- Thickness: 1-3/4" (+/- 1/16")
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded to each skin at a maximum of 5" on center. Hinge channels have an additional 9 gauge reinforcement at each hinge location, providing over 3/16" reinforcement (Backset 1/4")
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 gauge steel channel. 16 gauge reinforcements for mortised or cylindrical locks are of an integral type in accordance with ANSI A115 standards.
- Top Channel: Top channel is flush 16 gauge channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is 16 gauge flush, projection welded at a maximum of 2-1/2" on center
- Core: 250° Temperature Rise core
- Face Skin: 16 gauge, A40 Galvannealed
- Closer Reinforcement (Optional): 14 gauge standard
- Size Availability: Maximum 3'6" x 8'0"
- SDI 100 Grade/Model: Grade 3/Model 1 – 2 (Physical Performance Level A)
- Edge Seam Construction: Visible edge seam, standard. Optional Intermittently or Continuous welded edge seam
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for an easy modification from standard to heavy weight hinge Prep: 4-1/2" hinges standard
- Handing Design: Non-Handed standard/Optional Handed design

SECTION 08348 ACOUSTIC STEEL DOOR & FRAME ASSEMBLY

PART 1 - GENERAL	PART 2 - PRODUCTS
Quality Assurance <p>Sound Rating: Certify that the construction is identical to the Sound Transmission Classification (STC) assembly tested at an independent acoustical laboratory qualified under NVLAP by the National Institute for Science and Technology (NIST) according to ASTM E90 and that the STC rating according to ASTM E413 is not less than that specified or scheduled. Minimum STC rating shall be one of the following: 40, 42, 43, 47.</p>	Materials <ul style="list-style-type: none"> ▪ All steels used to manufacture doors, frames, anchors and accessories shall be in accordance with SDI-100/ANSI A250.8. ▪ Door Core shall be manufacturer's proprietary standard core to achieve specified ratings. ▪ Shop primer shall be manufacturer's standard rust inhibitive baked on or air dried shop primer. ▪ Door seals shall be manufacturer's standard sound seals. ▪ Hardware shall be manufacturer's standard seals, gasketing and threshold (when required).
Warranty <p>Material and workmanship shall be warranted by manufacturer for a period of one (1) year from the date of shipment. Warranty shall apply to replacement or retrofit of product only.</p>	Fabrication <ul style="list-style-type: none"> ▪ Doors shall be minimum 16 gauge (STC 40, 42, 43 and 47), 1-3/4" thick, without visible joints on exposed faces. Reinforce top and bottom with "flush" steel channels of not less than 16 gauge. ▪ Door core shall be proprietary acoustic composite core as tested by manufacturer to meet specified STC rating. ▪ Frames shall be minimum 16 gauge, face welded and ground smooth construction or KD frames on STC 40 or 42 only. Provide frames with minimum of three anchors per jamb suitable for adjoining wall construction. Provide anchors of not less than 0.042" in thickness or 0.167" diameter wire. ▪ All frames shall be fully prepared for mortised hardware and reinforced only for surface mounted hardware. Drilling and/or tapping shall be completed by others. ▪ Acoustical Seals shall be manufactured by Zero International or Pemko.
Approved Manufacturers <p>Republic Doors and Frames 155 Republic Drive McKenzie TN 38201 Phone: 800-733-3667 Fax: 800-723-6677</p>	

INSTALLATION INSTRUCTIONS FOR ACOUSTIC GASKETS

Republic's tested STC system included: R-564 threshold, R-485 head and jamb seals, R-119 spring bronze head and jamb seals.

1. The R-119 spring bronze should be installed on the bottom of the door before hanging.
2. Install the R-564 threshold to suit floor condition. Caulk round the bottom of threshold along with the entire perimeter of frame and at meeting edges of threshold and frame.
3. Close the door and measure the frame opening width and height. Install the R-485 head piece first (trim as necessary). Place the piece against the face of the door, making gentle contact between the "rubber extrusion" seal and the door, then fasten in place. Place the hinge side seal against the face of the door, making gentle contact between the "rubber extrusion" seal and the door, then fasten in place. Place the strike side seal against the face of the door, making gentle contact between the rubber extrusion seal and the door, then fasten in place.
4. Install the R-119, head piece first, then the hinge side and finally the lock side using the pressure sensitive tape to fasten the spring bronze to the frame.
5. Check operation of the door after each piece of material is installed to make sure that no binding is taking place.

SOUND TRANSMISSION CONTROL (STC) 40, 42, 43 and 47 DOORS DL Series Sound Transmission Control (STC) Doors shall be as manufactured or furnished by Republic Doors and Frames, McKenzie, Tennessee 38201.

SINGLES - UNIVERSAL X 7/16" SINGLE RETURN

1. STC Frames are priced 1/2" Double Return, CRS, Face Welded construction. Frames must be fully grouted or filled with sound deadening insulation (by others.) Doors are priced 16 gauge, CRS, Steel Stiffened core and 3/8" undercut.
2. STC 42 units available with knock down frame, deduct \$58.00 per frame from above price, and are honeycomb core as standard.
3. STC 42 to 47 Hardware Package (Included in price)

SINGLE (EMBOSSSED 6 PANEL)			
STC	Width	Height	Door
40	Thru 3'0"	7'0"	\$3,334
	Over 3'0" – 3'6"		\$3,466
40	Thru 3'0"	8'0"	\$3,586
	Over 3'0" – 3'6"		\$3,747

STC 40 EMBOSSSED 6 PANEL NOTES
Temperature Rise core included in price
Does not require or include hardware package
Standard 3/4" undercut

Testing and Qualifications:

All door systems tested in accordance with:

- ASTM E 90-04
- ASTM E 413-04
- ASTM E 1332-90
- ASTM E 2235-04

Testing was performed by:
Architectural Testing Inc. and
Riverbank Acoustical Laboratories

- Doors are available from STC 33 to STC 47
- Standard hollow metal frames (min. 5-3/4" frame depth) - welded. KD available on 40 and 42.
- SDI Level 3 - Maximum Duty - Performance Level A
- Fire rated available 40, 42 only
- Sound resistant septum (proprietary construction)
- All doors tested in fully operable conditions

STEEL TYPES		
Description	Door	Frame
Cold rolled steel	Included	Included
A60 Galvanized steel	\$111.00	\$61.00
G90 Galvanized steel (14 and 16 gauge only)	\$445.00	\$108.00

HINGE PREPARATIONS		
Description	Door	Frame
Special hinge locations	No charge	No charge
4-1/2" or 5" Universal hinge prep	No charge	No charge
Additional hinge prep (per hinge)	\$27.00	\$25.00
Electric hinge <ul style="list-style-type: none"> Cutout in one hinge reinf. No junction box or conduit 	\$27.00	\$25.00
Power transfer (no junction box or conduit)	\$145.00	\$111.00
8" Junction box welded in	N/A	\$34.00

SOUND TRANSMISSION CONTROL (STC) 48 - 50 - 52 AND STC 47 PAIRS

Specialty

Refer to technical data sheet on page 16

SOUND TRANSMISSION CONTROL (STC) 48

- Thickness: 1-3/4" (+/- 1/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 3/8" in height. Standard undercut is 1/4". Undercut is contingent on threshold.
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 16 gauge steel channel projection welded to each skin at a maximum of 5" on center. Hinge channels have an additional 9 gauge reinforcement at each hinge location, providing over 3/16" reinforcement (Backset 1/4")
- Core: Special Sound Core
- Closer Reinforcement (Req'd): 14 gauge std
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 16 gauge steel channel. 16 gauge reinforcements for mortised or cylindrical locks are of an integral type in accordance with ANSI A115 standards.
- Top Channel: Top channel is flush 16 gauge channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is 16 gauge flush, projection welded at a maximum of 2-1/2" on center
- Face Skin: 16 gauge, Cold Roll Steel, A60 Galvanneal or G90 Galvanized
- Size Availability: Maximum 4'0" x 8'0"
- SDI 100 Grade/Model: Grade 3/Model 2 (Physical Performance Level A)
- Edge Seam Construction: Intermittently welded edge seam (Optional - Continuous welded edge seam)
- Universal Standard/Heavy Weight Hinge: Hinge fillers are used allowing for an easy modification from standard to heavy weight hinge Prep: 5" hinges standard
- Handing Design: Non-Handed standard/Optional Handed design

SOUND TRANSMISSION CONTROL (STC) 50 and 52

- Thickness: 1-13/16" (+/- 1/16")
- Actual Door Size: Door undersized from nominal by 1/4" in width and 3/8" in height. Standard undercut is 1/4". Undercut is contingent on threshold.
- Hinge Rail and Reinforcement: Hinge edge is non-beveled and reinforced with a continuous 10 gauge steel channel projection welded to each skin at a maximum of 5" on center.
- Core: Special Sound Core
- Lock Rail: Lock edge is non-beveled and reinforced with a continuous 14 gauge steel channel projection welded at a maximum of 5" on center.
- Top Channel: Top channel is flush 16 gauge channel, projection welded at a maximum of 2-1/2" on center
- Bottom Channel: Bottom channel is 16 gauge flush, projection welded at a maximum of 2-1/2" on center
- Face Skin: 14 gauge, Cold Roll Steel, A60 Galvanneal or G90 Galvanized
- Closer Reinforcement (Req'd): 14 gauge std
- Size Availability: Maximum 4'0" x 8'0"
- SDI 100 Grade/Model: Grade 4/Model 2 (Physical Performance Level A)
- Edge Seam Construction: Intermittently welded edge seam standard. (Optional - continuous welded edge seam)

Note: STC Pairs available - Maximum rating 47

SECTION 08348 ACOUSTIC STEEL DOOR & FRAME ASSEMBLY

PART 1 - GENERAL	PART 2 - PRODUCTS
Quality Assurance <p>Sound Rating: Certify that the construction is identical to the Sound Transmission Classification (STC) assembly tested at an independent acoustical laboratory qualified under NVLAP by the National Institute for Science and Technology (NIST) according to ASTM E90 and that the STC rating according to ASTM E413 is not less than that specified or scheduled. Minimum STC rating shall be one of the following: 48, 50, 52.</p>	Materials <ul style="list-style-type: none"> ▪ All steels used to manufacture doors, frames, anchors and accessories shall be in accordance with SDI-100/ANSI A250.8. ▪ Door Core shall be manufacturer's proprietary standard core to achieve specified ratings. ▪ Shop primer shall be manufacturer's standard rust inhibitive baked on or air dried shop primer. ▪ Door seals shall be manufacturer's standard adjustable sound seals. ▪ Hardware shall be manufacturer's standard Cam-Lift hinges, door bottom, threshold, seals and gaskets (when required).
Warranty <p>Material and workmanship shall be warranted by manufacturer for a period of one (1) year from the date of shipment. Warranty shall apply to replacement or retrofit of product only.</p>	Fabrication <ul style="list-style-type: none"> ▪ Doors shall be minimum 14 gauge (STC 50 and 52 = 1-13/16"), 16 gauge (STC 48 = 1-3/4"), (nominal), without visible joints on exposed faces. Reinforce top and bottom with "flush" steel channels of no less than 16 gauge. ▪ Door core shall be proprietary acoustic composite core as tested by manufacturer to meet specified STC rating. ▪ Frames shall be minimum 16 gauge for STC 48, 14 gauge for STC 50 and 52, face welded and ground smooth construction. Provide frames with minimum of three anchors per jamb suitable for adjoining wall construction. ▪ All frames shall be fully prepared for mortised hardware and reinforced only for surface mounted hardware. Drilling and/or tapping shall be completed by others. ▪ Acoustical Seals shall be manufactured by Zero International or Pemko.
Approved Manufacturers <p>Republic Doors and Frames 155 Republic Drive McKenzie TN 38201 Phone: 800-733-3667 Fax: 800-723-6677</p>	

INSTALLATION INSTRUCTIONS FOR ACOUSTIC GASKETS

Republic's tested STC system included: R-566 threshold, R-870 adjustable head and jamb seals, R-119 spring bronze head and jamb seals.

1. The R-119 spring bronze should be installed on the bottom of the door before hanging.
2. Install the R-566 threshold to suit floor condition. Caulk round the bottom of threshold along with the entire perimeter of frame and at meeting edges of threshold and frame.
3. Close the door and measure the frame opening width and height. Install the R-870 head piece first (trim as necessary). Place the piece against the face of the door, making gentle contact between the "rubber extrusion" seal and the door, then fasten in place. Place the hinge side seal against the face of the door, making gentle contact between the "rubber extrusion" seal and the door, then fasten in place. Place the strike side seal against the face of the door, making gentle contact between the rubber extrusion seal and the door, then fasten in place.
4. Install the R-119, head piece first, then the hinge side and finally the lock side using the pressure sensitive tape to fasten the spring bronze to the frame.
5. Adjust the R-870 with the adjustment screws for the desired seal and operation of the door.
6. Check operation of the door after each piece of material is installed to make sure that no binding is taking place.

1. Frames must be fully grouted or filled with sound deadening insulation (by others.) Doors are priced CRS, Steel Stiffened core, Seamless edge design, 16 gauge for STC rating 48 - STC 50 and 52 are 14 gauge. Materials are prepped for 5.0" Heavy Weight hinges. Doors have a 1/4" undercut due to threshold requirements. STC units prepped at 5-10=Equal hinge spacing.
2. STC 48 to 52 frames are priced 7/16" Single Return, CRS, Face Welded construction.
3. STC 48 to 52 frames are priced 1/2" Double Return, 14 gauge, CRS, Face Welded construction.

- Doors are available from STC 48 to STC 52
- Standard hollow metal frames (min. 5-3/4" frame depth - welded)
- Flush top and bottom channel
- SDI Level 3 and 4 - Maximum Duty - Performance Level A
- Sound-resistant septum (proprietary construction)
- STC 48 and above furnished complete with all perimeter seals, 5" Cam-lift hinges and threshold and door bottom
- Pairs available up to STC 47
- All doors tested in fully operable conditions

Testing and Qualifications:

All door systems tested in accordance with:

- ASTM E 90-04
- ASTM E 413-04
- ASTM E 1332-90
- ASTM E 2235-04

Testing was performed by:

Architectural Testing Inc. and
Riverbank Acoustical Laboratories

STEEL TYPES		
Description	Door	Frame
Cold rolled steel	Included	Included
A60 Galvanized steel	\$111.00	\$61.00
G90 Galvanized steel (14 and 16 gauge only)	\$445.00	\$108.00

HINGE PREPARATIONS		
Description	Door	Frame
Special hinge locations	No charge	No charge
Additional hinge prep (per hinge)	\$27.00	\$25.00
5" Standard or heavy weight hinge prep (each)	Included	Included
Electric hinge <ul style="list-style-type: none"> Cutout in one hinge reinf. No junction box or conduit 	\$27.00	\$25.00
Power transfer (no junction box or conduit)	\$145.00	\$111.00
8" Junction box welded in	N/A	\$34.00
14" Junction box welded in	N/A	\$34.00
10" Junction box welded in soffit	N/A	\$34.00

DOOR - LOCK/FRAME - STRIKE PREPARATIONS		
Description	Door	Frame
Standard lock (strike) at non-standard location	No charge	No charge
Cylindrical dead lock (2-3/4" strike)	\$65.00	\$25.00
Mortise dead lock (3-1/2" strike)	\$65.00	\$25.00
Electric strike (no junction box or conduit)	\$143.00	\$107.00
Rim reinforcement only ¹	\$54.00	\$33.00
Mortise exit device reinforcement with function prep	\$95.00	N/A
Surface vertical rod reinforcement only ¹	\$87.00	\$33.00
Concealed vertical rod (strike)	\$648.00	N/A
Exit alarm reinforcement only ¹	\$66.00	\$33.00

1. Republic Tested Acoustical Systems: tested with standard hardware applications. Surface-applied hardware not recommended due to possible interference with seals and gaskets. Any break or tear in seals and gaskets may affect performance.

FRAME PROFILE OPTIONS		
Description	Door	Frame
Single rabbet (minimum depth on STC is 5-3/4")	N/A	No charge
4" Face heads (through 4'0")	N/A	\$64.00
4" Face heads (over 4'0")	N/A	\$89.00

See [Engineering Section](#) for further options and/or details.

LABEL PREPARATIONS		
Description	Door	Frame
Mark numbers	No charge	No charge
U.L. Mylar label (std unless specified otherwise)	N/A	N/A
U.L. Metal label	N/A	N/A
Warnock Hersey Metal label	N/A	N/A
STC labels with gasketing (lab tested)	Included	Included

CLOSER PREPARATIONS		
Description	Door	Frame
Closer reinforcement	\$40.00	\$33.00
Concealed overhead door closer, holder or stop	\$394.00	\$307.00

SPECIAL FINISH		
Description	Door	Frame
Second coat of primer	\$132.00	\$123.00
Finish paint setup charge	\$1,433.00	\$1,433.00
Finish paint <ul style="list-style-type: none"> Minimum quantity of 20 doors or 20 (3pc) frames per color Price includes full carton wrap 	\$360.00	\$360.00

ANCHOR OPTIONS		
Description	Door	Frame
Welded in prepared opening anchor (per anchor)	N/A	\$17.00
Welded in anchor (per anchor)	N/A	\$7.50
Punch and dimple only (per P&D)	N/A	\$6.00

FRAME CONSTRUCTION		
Description	Door	Frame
Unit bundle (3pc)	N/A	\$7.00
Standard face weld (3pc)	N/A	Included
Full profile weld (3pc)	N/A	\$220.00

SPECIAL CONSTRUCTIONS		
Description	Door	Frame
10 Gauge hinge and 14 gauge lock channels	N/A	N/A
Seal top or bottom channel and finish smooth each	\$150.00	N/A
Mag switch/DPS - Hole only	\$25.00	\$25.00
Mag switch/DPS - Prep and reinf. (no junction box)	\$131.00	\$97.00
Bondo filled edge	Included	N/A
Continuous welded edge	\$192.00	N/A
Beveled lock edge (1/8" in 2") STC 48 only	\$23.00	N/A
Door viewer	\$32.00	N/A
Conduit/raceway - includes wire pull	\$202.00	N/A

Universal Sticks

Refer to technical data sheet on page 15

Republic pre-engineered steel frame components called "sticks" provide unlimited flexibility for opening systems. Stick components are used to fabricate even the most complex entrance fronts, partitions and window wall designs. The variety of jamb depths and sizes permit greater design freedom. Because stick assemblies are normally welded, they offer strength without seams showing between vertical and horizontal members.

These openings can be designed for any job requirement, fabricated from factory components, assembled and welded by factory trained Republic Distributors. Because sticks can be shipped as components and fabricated locally, shipping costs, job delays and design limitations are greatly reduced.

Frame assemblies shall be made of standard stick components, fabricated from prime quality 16, 14 or 12 gauge, cold-rolled or galvanized steel. Where sticks are used at door openings in the frame assemblies, they shall be prepared for all hardware specified. Frame assemblies shall be fabricated from three basic components: Open sections (perimeter members), Mullion sections (intermediate members) and Sill sections (bottom members).

Mullion sections shall have identical jamb depths and stops as open sections. Mullion sections are only available in 16 and 14 gauge.

Sill sections shall be flush with both faces of adjacent vertical members. The individual sticks shall be cut to length and notched to assure square joints and corners. All joints and corners of the frame assembly available welded and ground smooth at the face of the sections.

When specified, steel panels shall be furnished 1-3/8" or 1-3/4" thick as required.

All stick components, steel panels and frame assemblies shall be phosphatized and receive one coat of force-cured rust inhibiting prime paint. Steel channel glazing beads shall be provided with the assemblies for all areas in which glass is to be installed.

Frame assemblies may be shipped to jobsite completely welded. Field joints shall be permitted only when the size of the total assembly exceeds shipping limitations. When frame assemblies are subjected to windloads, vertical members shall be free of field splices.

Sticks are manufactured in 10'3" maximum lengths. Other lengths are available. Consult factory.

Other profiles are available upon request.

CUT-N-NOTCH AND PANELS

Sticks

The information contained herein has been prepared to permit architects, engineers and other qualified persons to design and select the proper Republic standard stick components for use in fabricated frame assemblies when subjected to structural or wind loads.

Physical properties and wind load tables were calculated by a registered engineer and are based on the "Specifications for the Design of Cold-Formed Steel Structural Members", 1969 Edition, published by the American Iron and Steel Institute.

Table I (See Technical Data) lists the physical properties of open sections. These sections are usually used as perimeter components in any frame assembly and are not critical components of that assembly because perimeter components must be securely anchored to building walls.

Table II (See Technical Data) lists the physical properties of the closed sections. These sections are usually used as the intermediate horizontal and vertical components and are usually found to be the critical sections in any frame assembly. The critical component in any frame assembly is usually the component having the longest unsupported length or supporting the largest frame area in wind loading.

The most frequently encountered problem is that of designing an intermediate component to resist wind loading only. For this reason, Table III (See Technical Data) is included. This table allows the designer to calculate the wind load on the component in pounds per linear foot and then select the proper section directly from the table.

ANSI 4-7/8" ASA strike	\$25.00
Cylindrical dead lock (2-3/4" strike)	\$25.00
Mortise dead lock (3-1/2" strike)	\$25.00
Cut open backside of mullion/weld in sill anchor	\$90.00

NOTCHING / WELDING	
Mitered corner - Jamb (per end) (N/A in 12 gauge)	\$17.00
Notched end - Jamb/Sill (per end)	\$16.00
Notched end - Mullion (per end)	\$22.00
Glazing bead 3/4" wide - cut to length/bundled (per inch)	\$0.69
Glazing bead 1/2" wide - cut to length/bundled (per inch)	\$1.02
Glazing bead - installed (add to above) (per inch)	\$0.21
Full profile welding - Tab and slot corner connection	\$107.00
Face welding - Tab and slot corner connection	\$61.00
Face welding - 2" or less intersection	\$96.00
Face welding - over 2" up to 4" intersection	\$114.00
Face welding - over 4" up to 6" intersection	\$144.00
Face welding - over 6" up to 8" intersection	\$173.00
Face welding - over 8" up to 10" intersection	\$173.00
Face welding - over 10" up to 12" intersection	\$173.00
Field splicing - per connection (clips sold separately)	\$115.00
Splice/weld over 10' length	\$153.00

SPECIALTY OPTIONS / PER INCH	
1/16" Lead Installed, open section frames only	\$23.06
Bullet resistant (Level 1)	\$1.09

See [Engineering Section](#) for further options and/or details.

ENGINEERING

Please refer to individual product series pages to verify feature or prep is available in product series.

STEEL TYPES		
Description	Door	Frame
Cold rolled steel	Included	Included
A60 Galvanized steel	\$111.00	\$61.00
G90 Galvanized steel ¹	\$445.00	\$108.00
12 Gauge ²	N/A	N/A

1. Available in 14 and 16 gauge only.
2. See [Stick Section](#) for frames. Frames must be square cut or Cut-N-Notch connection(s). Welding required (not included) *5/8" returns

CORE OPTIONS		
Description	Door	Frame
Honeycomb	Included	N/A
Polystyrene insulated <ul style="list-style-type: none"> ▪ "U" Factor = .41 ▪ "R" Factor = 2.43 (Per ASTM C1363) 	\$41.00	N/A
Polyurethane insulated <ul style="list-style-type: none"> ▪ "U" Factor = .39 ▪ "R" Factor = 2.56 - (Per ASTM C1363)³ 	\$206.00	N/A
Steel stiffened (20 gauge standard) <ul style="list-style-type: none"> ▪ "U" Factor = .61 ▪ "R" Factor = 1.65 (Per ASTM C1363) 	\$319.00	N/A
Steel stiffened (18 gauge option)	\$398.00	N/A
Steel stiffened (16 gauge option)	\$558.00	N/A
Steel stiffened with 20 gauge stiffeners and Polystyrene insulation between stiffeners	\$398.00	N/A
Temperature rise 250°, to insulated DL/DE price	\$1,087.00	N/A

3. Not available as Fire rated.

PIVOT OPTIONS		
Description	Door	Frame
Offset or intermediate - per prep ⁴	\$187.00	\$114.00
Center hung - per prep ⁴	N/A	\$114.00
Rescue hardware prep - one pivot prep and emergency stop ⁴	N/A	\$305.00
Double lipped strike - per prep	N/A	\$152.00
Pocket pivot - per prep ⁵	\$206.00	\$173.00

4. No drilling or tapping.
5. No drilling or tapping in door.

HINGE PREPARATIONS		
Description	Door	Frame
Special hinge locations	No charge	No charge
4-1/2" Universal hinge prep (1) prep for every 30" in height	No charge	No charge
Additional hinge prep (per hinge)	\$27.00	\$25.00
4" Template hinge prep (square corner only) (per hinge)	\$62.00	\$62.00
5" Universal weight hinge prep (per hinge)	No charge	No charge
Non-standard height 6"-8" hinge (per hinge)	\$107.00	\$79.00
Double mortise hinge (per hinge)	\$57.00	N/A
Invisible hinge prep (SOSS) (per hinge) (includes drilling and tapping)	\$288.00	\$288.00
Anchor hinge prep (per hinge) (no drilling or tapping)	\$518.00	\$305.00
Electric hinge <ul style="list-style-type: none"> ▪ No junction box or conduit, no wiring included ▪ One 1/2" dia. hole in one hinge reinf. 	\$27.00	\$25.00
Surface mounted hinges (reinforcement only)	\$121.00	N/A
Continuous hinge reinforcement <ul style="list-style-type: none"> ▪ Frame, located either on rabbet or face ▪ Door, located on either hinge edge or approx 4" on face of hinge side 	\$94.00	\$88.00
High frequency hinge reinforcement (per hinge (typical top hinge only)	N/A	\$30.00
Double acting hinge reinforcement (Eliason) 12 gauge - 24" up x JD @ bottom/12" down x JD @ top (per jamb)	N/A	\$116.00
Double acting hinge reinforcement 12 gauge - 12" x JD (per location)	N/A	\$65.00
Full jamb height hinge reinforcement 12 gauge - 2" x Hgt.	N/A	\$90.00
Power transfer <ul style="list-style-type: none"> ▪ No junction box or conduit ▪ Cutout with reinforcement/tap plate(s) 	\$145.00	\$111.00
Special backset (per hinge)	\$139.00	\$78.00
Handed hinge prep	\$21.00	N/A

STRIKE/LOCK PREPARATIONS		
Description	Door	Frame
Special strike or lock location	No charge	No charge
ANSI 4-7/8" Strike prep	\$63.00	\$25.00
Mortise lock prep - Gov't 86 edge with function holes	No charge	N/A
Mortise lock prep for 1-3/8" thick door	\$75.00	N/A
Cylindrical dead lock prep <ul style="list-style-type: none"> Frame: 2-3/4" or 4-7/8" strike (lipped or non-lipped) Door: Gov't 160 or 161 prep 	\$65.00	\$25.00
Mortise dead lock prep <ul style="list-style-type: none"> Frame: 3-1/2" or 4-7/8" strike (lipped or non-lipped) Door: Gov't 86 mortise lock prep 	\$65.00	\$25.00
Card reader lock prep (ex. Vingcard)	\$57.00	N/A
Special backset (over 5")	\$52.00	N/A
Rim reinforcement only	\$54.00	\$33.00
Rim reinforcement with function prep	\$60.00	N/A
Mortise exit device reinforcement only	\$39.00	N/A
Mortise exit device reinforcement with function prep	\$95.00	N/A
Allegion Mortise exit device reinforcement with function prep	\$76.00	N/A
Surface vertical rod reinforcement only	\$87.00	\$33.00
Surface vertical rod reinforcement with function prep	\$105.00	N/A
Allegion Surface vertical rod reinforcement with function prep	\$93.00	N/A
Concealed vertical rod <ul style="list-style-type: none"> Frame mortise strike (per prep) Door per template 	\$648.00	\$73.00
Allegion Concealed vertical rod <ul style="list-style-type: none"> Frame mortise strike (per prep) Door per template 	\$515.00	\$73.00
Exit alarm reinforcement only	\$66.00	\$33.00
Inset exit device (14 and 16 gauge doors only)/ Frame Non ASA strike	\$505.00	N/A
Push pull reinforcement	\$42.00	N/A
Electric strike mortise prep (no junction box or conduit)	\$143.00	\$107.00
Flush bolt <ul style="list-style-type: none"> Strike prep Frame, reversible or automatic Door - Edge, top and bottom prep - ANSI A115.4 	\$101.00	\$63.00
Surface bolt reinforce only	\$38.00	\$33.00
Detention/security lock (ex. FA NS400/Brinks 3526)	\$163.00	\$151.00
Non-standard gauge/special thickness strike reinforcement (standard prep)	N/A	\$71.00
Flush cup pull prep (per side)	\$137.00	N/A
Roller latch (per prep top or lock edge)	\$94.00	\$46.00
Fire bolt/popper (each prep)	\$46.00	N/A

CLOSER PREPARATIONS		
Description	Door	Frame
Closer reinforcement <ul style="list-style-type: none"> Frame 14 gauge x 14" Plate - RA or PA Door 14 gauge x 18" x 6" 	\$40.00	\$33.00
Door - optional 12 gauge reinforcement	\$75.00	N/A
Door - full width reinforcement (price per 18")	\$40.00	N/A
Frame - full depth reinforcement (price per foot)	N/A	\$35.00
Coordinator reinforcement	N/A	\$33.00
Concealed overhead door closer, holder, or stop	\$394.00	\$307.00
Allegion Concealed overhead door closer, holder, or stop	\$343.00	\$278.00
Surface mounted overhead stop/holder reinforcement	N/A	\$307.00

INACTIVE LEAF PREPARATIONS		
Description	Door	Frame
Flush bolt embossment in top/bottom channel	No charge	N/A
ANSI (4-7/8") Strike only	\$63.00	N/A
Cylindrical (2-3/4") or mortise (3-1/2") dead lock strike	\$65.00	N/A
Attaching astragal (includes astragal)	\$116.00	N/A
Open back strike	\$171.00	N/A

LABEL PREPARATIONS		
Description	Door	Frame
Mark numbers	No charge	No charge
U.L. Mylar label ¹	\$22.00	\$24.00
U.L. Metal label	\$51.00	\$31.00
ITS/Warnock Hersey Metal label	\$51.00	\$31.00
Hurricane FBC or E330 label	\$22.00	\$24.00

1. Standard unless specified otherwise.

SPECIAL CONSTRUCTIONS		
Description	Door	Frame
Special width (use next larger size) (max 4'10" on doors)	No charge	No charge
Special height (use next larger size) (max 10'0" on doors)	No charge	No charge
Undercut - under 3/8" price next larger size	No charge	N/A
Inverted top channel (standard flush)	No charge	N/A
Flush bottom channel (standard inverted)	No charge	N/A
Seal top or bottom channel and finish smooth (per each)	\$150.00	N/A
Bondo filled edge (includes both hinge and lock edge)	\$128.00	N/A
Continuous welded edge (includes hinge and lock edge) ¹	\$192.00	N/A
Unifit channel - consult factory for availability	\$95.00	N/A
Communicating (6) 4.5" hinge preps x (2) 4-7/8" ASA preps, or (2) 2-3/4" strike preps	N/A	\$88.00
Dutch prep (4) 4.5" hinge preps x (1) ASA preps ²	\$353.00	\$91.00
Cap top of jamb (each)	N/A	\$147.00
Mag switch/DPS - Hole only	\$25.00	\$25.00
Mag switch/DPS - Prep and reinf. (no junction box)	\$131.00	\$97.00
Magnetic/shear lock - mortised prep in top of door	\$343.00	\$219.00
Hospital stop (galv) up to 6" (N/A on double egress)	N/A	\$238.00
8" Junction box welded in	N/A	\$34.00
14" Junction box welded in	N/A	\$34.00
10" Junction box welded in soffit	N/A	\$34.00
Removeable HM mullion prep - notch (1) end of piece, weld in angle clip(s)	N/A	\$90.00
Removeable HM mullion reinforcement only	N/A	\$25.00
removeable hardware mullion reinforcement only	N/A	\$25.00
Beveled lock edge (1/8" in 2") ³	\$23.00	N/A
10 Gauge hinge and 14 gauge lock channels DE Series (standard on 14 gauge door)	\$166.00	N/A
1-3/8" Thick door - DE Series - Polystyrene core only (no DE price adder required) ^{4,5}	\$166.00	N/A
Non-standard rabbet 2" thick door	N/A	\$261.00
14 GA Top or bottom channel (per each)	\$74.00	N/A
Rabbeted door or panel (per edge)	\$797.00	N/A
Wicket door prep (consult factory)	Inquiry**	N/A
Door viewer	\$32.00	N/A
Mail slot/food service pass thru (up to 100 sq. in.) - Cutout only	\$91.00	N/A
Monorail prep (per leaf)	\$487.00	N/A
Automatic door bottom (mortise type)	\$239.00	N/A
Conduit/raceway installed in door - Includes wire pull (N/A in DP)	\$202.00	N/A
Factory installed Allegion Connect wiring harness (N/A in DP doors, see Tech Manual for details)	\$187.00	N/A

1. Not available in 20 gauge.
2. Refer to inactive options for ASA in either top or bottom leaf.
3. Not available in 14 gauge and Inactive leaves with strike(s).
4. 6'8" door - standard (2) 3.5" hinges, (1) CH lock prep (2-1/8" Bore x 2-3/4" Backset/1" x 2-1/4" Edge)
5. Fire Rated 6'8" requires (3) hinge preps - ADD (1) hinge prep.

****Email Estimating requests for quote prior to order submission.**

SPECIAL FINISH PREPARATIONS		
Description	Door	Frame
Second coat of Republic primer	\$132.00	\$123.00
Finish paint setup charge (never waived)	\$1,433.00	\$1,433.00
Finish paint - min. qty. 20 doors or 3pc frames per color (price includes full carton wrap)	\$360.00	\$360.00

Finish paint not available with welded frames.

ANCHOR OPTIONS	Price adjustment	
Description	Door	Frame
Welded in prepared opening anchor - Punch and dimple with anchor (per anchor)	N/A	\$17.00
Welded in anchor (per anchor)	N/A	\$7.50
Punch and dimple only (per prep)	N/A	\$6.00
Deduct for omit drywall compression anchor (Per frame)	N/A	-\$6.00
Embossed hole - 3/16" in face for (#10 bugle head screw) approx 3/4" from bottom	N/A	No charge
3/8" x 5" Sleeve anchor (each) (sold separately)	N/A	\$9.00

For loose anchors, refer to [Frame Parts](#).

Prepared Opening Frames up 7'1" require 8 anchors (max 8-3/4" depth). Over 7'2" thru 10'0" require 10 (max 8-3/4" depth). Frames over 8-3/4" receive double the quantity and price.

FRAME CONSTRUCTION		
Description	Door	Frame
Mark numbers	No charge	No charge
Unit bundle (3pc)	N/A	\$7.00
Unit bundle (Elevation)	N/A	\$20.00
Standard face weld (3pc)	N/A	\$121.00
Full profile weld (3pc)	N/A	\$220.00

FRAME PROFILE OPTIONS		
Description	Door	Frame
No returns	N/A	No charge
Equal rabbet - standard unequal rabbet	N/A	No charge
Cased open	N/A	No charge
Single rabbet	N/A	No charge
4" Face heads (through 4'0")	N/A	\$64.00
4" Face heads (over 4'0")	N/A	\$89.00
Non standard face - per frame (1" - 3-7/8" Uniform)	N/A	\$79.00
Non standard rabbet - per frame	N/A	\$261.00
Drywall (second) return (1/2") (both sides)	N/A	\$57.00
Kerf (includes weather-stripping)	N/A	\$194.00
Non standard returns (uniform)	N/A	\$79.00
Nailer flange (per frame/both faces)	N/A	\$142.00
Casement ready (MN Series - nailer holes) (per frame)	N/A	\$93.00

GLASS KIT OPTIONS			
	Vision/ Narrow Lite up to 100 inch ²	Half Glass over 100 inch ² up to 800 inch ²	Full Glass over 800 inch ²
Cutout with kit installed	\$245	\$290	N/A
Cutout with kit and reinforcement	\$332	\$377	\$421
Sunburst kit (cutout and 1/2" glass included)	\$594	N/A	N/A
Muntin bar (each)	\$160	\$160	\$160

Full Glass	3068, 3268	22" x 59"	3927122	\$457.00
Full Glass	3070, 3072, 30710, 3270, 3272, 32710	22" x 63"	3927124	\$474.00

The above listed glass kits are for 1-3/4" doors.

No Glazing Compound, Tape or Intumescent is required for most label application

- Reduces cost
- Simplifies installation
- Improves appearance

Note: For exterior applications or where glazing tape is required, kits must be ordered with additional glass pocket space.

- Example: If 1/4" glass + 1/16" glazing tape on both sides, you must order the frame for a 3/8" glass pocket (Glass Thickness).

UL AND WH LISTED

Meets UL10B requirements for NEGATIVE PRESSURE and UL10C & UBC 7-2(1997) for POSITIVE PRESSURE. Refer to AMS Listing Specifications.

Fire tested WITHOUT glazing compound, tape or intumescent.

Broken-lot charge for less-than-package quantities: 50% of package list price. (Charge will be discounted at rate of overall order discount)

Special glass lite sizes available, consult factory.

ORDER INFORMATION

Order Size: Inside dimension of frame (H + W)

Cutout Size: Order Size + 1-1/2"

Glass Size: Order Size + 3/4"

MATERIAL

- 18 gauge CRS frame is standard
- 33% thicker than 20 gauge frames
- Maintains flat appearance

DIMENSIONS

- Standard Frame fits 1/4" glass and 1-3/4" door

NARROW FACE FRAME

- Better proportioned
- Visually appealing
- Suitable for wood, metal or mineral core doors

LOW PROFILE

- Provides less interference for exit hardware

NAIL IN FASTENING METHOD

- Requires only one person to install
- Significantly reduces installation time
- Corridor side is fastener free, secure and attractive
