

STEELCRAFT®

Paladin™ Series

Glass light steel tornado doors

The first fire-rated tornado glass light for hollow metal

Steelcraft® is leading, and lighting, the way in the industry with the new Paladin™ PW Glass Light Series tornado doors. Our patent pending tornado glass light doors provide the critical visibility and safety needed in today's classrooms, safe rooms, and storm shelters, while allowing natural light to enter the room.

Having the ability to withstand the direct impact of a 15lb 2x4 at over 100mph, our high impact glass lights are compliant with ICC500-2014 and FEMA 361/320 and labeled with ITS/WHI Intertek labels for tornado resistance.

Options include fire rating to 90 minutes for vision and ADA compliant narrow lights. Lights are factory installed to control quality and dependability of your life-safety product. These lights can be ordered in any PW Series Door in a 3-sided frame.

Features and benefits

Performance

- Protection from tornados with optional fire rating
- Able to withstand the impact of a 15lb 2x4 at 100 mph per ICC500-2014 test criteria
